Project Title: Atlantic Hurricane Website

I'd like to build this site as one page. The different sections will be closed unless clicked on then they will be expanded to show the information in that section. The site will include navigation at the top to the different sections. It will also include relevant imagery throughout.

- Introduction- introduce what Atlantic Hurricanes are and some background
- Steering factors
- Intensity
- Climatology
 - Seasonal variation
- Extremes
- Trend
 - Paleoclimatology and historical trends
 - Climate change
 - Impact
